Professional Summary

Data and Systems Analyst focused on Business Intelligence, data governance, automation, systems implementation, and internal tools. Proven impact delivering 300+ BI reports, improving data accuracy, automating operational workflows, and reducing critical ETL runtimes. Strong background in SQL, SSRS, ETL, Python, Power BI, Power Platform, infrastructure, and enterprise data ecosystems.

Technical Skills

BI and Analytics: SQL Server, SQL, SSRS, Power BI, DAX, Tableau, ETL, data modeling, dashboards, reporting automation.

Data Engineering: Data quality, data governance, data warehouse concepts, performance optimization, data exports, corporate integrations.

Automation and Development: Python, Bash, Power Apps, Power Automate, SharePoint, APIs, XML, n8n, JavaScript, TypeScript.

Web Development: Astro, Nuxt.js, Vue, React, Tailwind CSS, Bootstrap.

Systems and Infrastructure: Docker, Nginx, Ubuntu Server, Active Directory, GLPI, IT support.

Languages: Spanish native; English advanced, C2-level studies, legal and commercial translation background.

Professional Experience

Freelancer in Technology Solutions — Data, Automation and Development

Apr 2026–Present Independent — Paraguay, Remote / On-site

- Provide consulting in data, automation, integrations, web development, dashboards, infrastructure support, and process improvement.
- Build practical business solutions including data pipelines, automations, integrations, recovery workflows, dashboards, websites, and internal tools.

Multidisciplinary IT Systems Analyst — Data Focus

Aug 2023–Mar 2026 H. Petersen — Caterpillar Dealer, Paraguay

- Delivered 300+ BI reports and dashboards using SQL Server, SSRS, Power BI, and Excel automation for finance, services, parts, marketing, rental, energy, and operations.
- Modernized core financial reporting by replacing manual Excel-based processes with automated, traceable, and centralized reports for sales, purchases, ledger, journal entries, treasury, imports, audits, and operational control.
- Reengineered critical ETL and reporting workflows, reducing processing time in key operational pipelines.
- Built 100+ automations, 5+ internal applications, and implemented 10+ Caterpillar corporate interfaces.

- Implemented data governance practices, data quality checks, warehouse structures, SQL performance optimization, and corporate data integration processes.
- Deployed and customized internal systems including GLPI, Wiki.js, Odoo CRM, Power Apps solutions, SharePoint workflows, and tools integrated with Active Directory.

Information Technology Coordinator — Systems Implementation and Support

Mar 2023–Jul 2023 Centro de Asistencia Médica S.A. — Paraguay

- Managed infrastructure, technical support, networks, computers, printers, and clinical and administrative systems.
- Initiated the implementation and migration toward the Anamnesis EMR platform, supporting system setup, data migration, testing, and process standardization.
- Resolved 200+ incidents and maintained 30+ devices, improving operational continuity through proactive support and issue tracking.

Cybersecurity Assistant Intern — Access Control and IT Security

2019–2020 Banco Nacional de Fomento — Paraguay

- Supported access control and IT security tasks in AS400 environments.
- Assisted with audit procedures to strengthen internal controls and reduce operational security risks.

Selected Projects

- **Financial and Operational Reporting Modernization:** Redesigned reporting workflows using SQL Server, SSRS, ETL, Excel automation, governance rules, and performance optimization.
- **Caterpillar Data and Integration Ecosystem:** Built data mappings, exports, corporate integration processes, XML flows, SQL integrations, and Tableau-related key user support.
- **GLPI ITSM Implementation:** Deployed GLPI on Ubuntu Server with Docker, Nginx, internal SSL, Active Directory authentication, inventory, tickets, and workflows.
- **Power Apps Mobile Solutions:** Built internal mobile apps for service technician logs and corporate cafeteria operations using Power Apps, SharePoint, QR flows, reports, and controls.

Education

B.Sc. in Computer Engineering — Universidad Autónoma de Asunción 2021–2027

Relevant formation in systems analysis, software architecture, programming, databases, data management, and IT project management.

Technical Baccalaureate in Computer Science — Colegio José del Rosario Pavón 2018–2020

Technical formation in informatics, programming, databases, and digital tools.

Selected Professional Training

Database Administration — Fundación Carlos Slim 2026

Data Analytics and Reporting — Caterpillar Inc. 2026

AI From Algorithms to Decisions — Caterpillar Inc. 2026

Sales Analytics and Metrics — Caterpillar Inc. 2026

Report Organization and Presentation — Caterpillar Inc. 2026

Data Curation — Fundación Carlos Slim 2025

Data Programming — SoloLearn	2024
Science and Data Analysis — HP LIFE	2024

Awards and Honors

Outstanding Student — Universidad Autónoma de Asunción	2024
VIP Platinum Recognition — H. Petersen / Caterpillar	2024
Honor Mention: Best Student and Best Graduate — Colegio José del Rosario Pavón	2019–2020
